ON Ontario Secondary School Diploma

Centennial College, Progress (2023-2026)

Undergraduate Software Engineering Advanced Diploma

Work Experience

Michael Garron Hospital

Locating / Switchboard Operator – On Call (IT Department) September 2023 – Present

- Perform a wide range of **clerical and administrative duties in a hospital environment**, including data entry, filing and maintaining records, updating sensitive healthcare information, and ensuring information is accurate, organized, and handled confidentially.
- Coordinate and maintain **daily and monthly staff and on-call schedules**, updating shift and coverage information and communicating scheduling changes to appropriate hospital personnel and departments.
- Operate the hospital's centralized switchboard in a **high-volume, high-pressure healthcare environment**, efficiently managing incoming calls, inquiries, physician locating, and communications across clinical and administrative departments.
- **Activate and facilitate hospital emergency codes**, using overhead paging and telecommunications systems to promptly notify appropriate clinical and emergency response teams.
- Coordinate emergency communications through **paging, notification calls, follow-ups, dispatching, and ongoing monitoring**, ensuring required personnel are contacted and critical information is communicated accurately and without delay.
- Page and locate physicians, nurses, on-call personnel, and other hospital staff, prioritizing urgent requests and facilitating communication between departments and members of interdisciplinary healthcare teams.
- Maintain and update **sensitive patient, staff, physician, and departmental information**, exercising discretion and adhering to hospital confidentiality and privacy requirements.
- Demonstrate strong **organizational and multitasking abilities**, simultaneously managing calls, paging requests, emergency situations, scheduling information, data entry, and other clerical responsibilities while maintaining accuracy.
- Provide professional and courteous service to patients, families, hospital staff, physicians, and members of the public, responding to inquiries and directing individuals to the appropriate personnel or department.
- **Troubleshoot telecommunications and IT-related issues**, provide first-line technical support, document technical concerns, generate service tickets, and escalate issues through appropriate channels to support timely resolution and continuity of hospital operations.
- Apply problem-solving skills to identify and resolve routine system, communication, and operational issues while recognizing situations requiring escalation to specialized IT or technical teams.
- Work effectively with **minimal supervision**, exercising sound judgment, prioritizing tasks according to urgency, and remaining calm and professional during emergency and time-sensitive situations.

- Collaborate closely with colleagues and hospital departments to maintain effective communication and continuity of operations, providing **flexible cross-coverage and team support** based on departmental and staffing needs.
- Utilize hospital computer applications and **Microsoft Office, including Word, Excel, and Outlook**, for data entry, record maintenance, scheduling, documentation, communication, and day-to-day administrative functions.

TELUS Connect 6 Marketing Group

Senior Sales Specialist / Floor Supervisor

December 2021 – August 2023

- Worked as a Tier 1 sales representative in a high-volume call-centre environment, identifying individual customer needs and recommending appropriate TELUS products and services.
- Delivered professional customer service while managing a high volume of customer interactions in a fast-paced, performance-driven environment.
- Maintained accurate daily spreadsheets, customer information, and company records while handling sensitive client information in accordance with confidentiality and security expectations.
- Supported **staff scheduling and daily team coordination**, helping maintain appropriate coverage and efficient workflow.
- Assisted colleagues with customer concerns and operational issues while contributing to a collaborative team environment.
- Assumed additional leadership responsibilities, including supporting the launch of a new sales campaign and helping maintain strong standards of productivity, accuracy, and customer service.
- Demonstrated reliability, adaptability, and strong interpersonal communication while working toward individual and team performance objectives.
